

Aggiornamento al Prezzario regionale Basilicata 2023

A 3D perspective rendering of a proposed building design. The structure is long and low, with a dark grey gabled roof. The left side features a large, light blue wall. The middle section has a light tan wall with two small square windows. The right side is covered by a dark grey roof supported by vertical wooden posts, creating a covered walkway or porch area. The building is set on a dark brown base, and the background is a light grey gradient.
